

Datasheet

Product name: Heterophilic Immunoglobulin Elimination Reagent

Catalog number: HIER-E-010

Expression system: Mouse

Appearance: Liquid

Purity: /

Isotype: /

Molecular weight: 150 kDa

Clone: /

Storage buffer: /

Storage condition: $-20\pm 5^{\circ}\text{C}$

Shelf life: 3 years

Intended use: Eliminate the heterophilic interference (false positives and negatives)

Application: Immunoturbidimetry

Notes:

1. This product is a biologically active protein intended for use in research and production, not for use in diagnostic procedures.
2. Store this product under the specified conditions.
